Ne have one BE Project students batch working with us on a project called "Relook at windows explorer - a file management tool"

Windows explorer is there from windows 95 onwards. The windows explorer Gul is acressed by everyone to navigate through the file system. Have our needs from a file manager to like "windows explorer" changed and produce mutated over time?

You are requested to answer this survey in relation to the survey will do not be to the survey of the survey of the system.

You are requested to answer this survey in relation to the current Windows explorer file management system that you use. Thanks!

Your ID: 456070

DESIRED FEATURES  Copying a file  Minimize time required to copy a file in a desired location  Minimize navigation path to find desired location  Minimize time required to create a file in a desired location  Minimize time required to create a file in a desired location  Minimize time required to create a file in a desired location  Minimize time required to find a file  Minimize time required to find a file  Minimize time required to find a file  Minimize time required to find related or similar files  Increase likelihood of finding most appropriate files  Finding similar or related files  Minimize time required to find related or similar files  Increase likelihood of finding most related or similar files  Comparing files  Adocument)  Minimize navigation path to find related or similar files  Increase no of files that can be compared at once  Categorizing files  Minimize time required to categorization of files  Increase no of decignies that same file can belong to  Minimize amount of redundant files (same file copied in multiple folders)  Minimize amount of redundant files (same file copied in multiple folders)  Suggest categories in case not found  Vewing files  Minimize time required to view file contents  Increase noof files that can be viewed at same time  Minimize time required in filtering / sorting		How important is this feature to you? (tick one)					How satisfied are you with this as of now? (tick one)				
Copying a file  Minimize time required to copy a file in a desired location  Minimize inavigation path to find desired location  Minimize likelihood that it will be copied in a wrong location  Creating a file  Minimize time required to create a file in a desired location  Finding a file  Minimize time required to find a file  Minimize likelihood of finding wrong file  Increase likelihood of finding most appropriate files  Finding similar or related files  Minimize ravigation of find related or similar files (e.g. all files related to a project)  Minimize navigation path to find related or similar files  Increase likelihood of finding most related or similar files  Comparing files  Alinimize time required to compare files (e.g. different versions)  Ja document)  Minimize navigation path to find related or similar files  Increase no of files that can be compared at once  Categorizing files  Minimize time required to categorization of files  Increase no of categories that same file can belong to  Minimize amount of redundant files (same file copied in multiple folders)  Suggest categories in case not found  Viewing files  Minimize time required to view file contents  Increase noof files that can be viewed at same time  Minimize time required in filtering / sorting	EN EFATIIRES	Not at all	Somewhat	Important	Very	Extremely	Not at all	Somewhat	Important	Very	Extremely
